## Inside Art & Design

Plaza de Toros de Las Ventas

**The new fair in Madrid launches its first edition, bringing the best in art, decoration and design of the moment together under one roof.**

**Organised by the creators of Marbella Design & Art.**

Madrid Inside Art & Design premieres as an event that proposes an innovative format for the participating brands, interior designers, designers, artisans and artists. Twelve days in which, through an absolutely groundbreaking intervention in the emblematic space of the Las Ventas bullring in Madrid, a very select group of interior designers exhibit their spaces designed with the freedom of having let their imagination run wild in the hands of brands, designers and top-level artists.

*"MIAD is a different and daring set-up, which defies the common structures that are usually seen in this type of fairs, providing a pleasant, comfortable and attractive route to go through it"*
